

I understand there is a possibility that my favorite Christian radio station, KLOVE (FM 91.3 and 106.3) may be displaced by low power FM. KLOVE is the only radio station in the San Antonio region that plays strictly Christian music, news and talk. I can keep my dial set to KLOVE without worry of my child hearing something that she shouldn't. If KLOVE were to be displaced, I would have no radio station that I would trust to be able to listen to with my entire family. KLOVE is truly a public treasure, since there are so many rude, vulgar and raunchy radio personalities on the airwaves today. Being able to leave KLOVE on without worry is important to me, my family, and my entire community. Please do not allow LPFM to displace my only radio resource for music!! Thanks!
